

RELX: driving innovation in Europe

RELX is a global company, rooted in Europe and headquartered in the UK. The combination of our rich data sets, technology infrastructure and knowledge of how to use next generation innovation allow us to create effective solutions for our users. This enables the communities we serve to make better decisions, get better results and be more productive.

We help researchers advance scientific knowledge; doctors and nurses improve the lives of patients; lawyers promote the rule of law and achieve justice and fair results; businesses and institutions prevent fraud and fight financial crime; and connect thousands of businesses to foster economic development in Europe.

RELX is a responsible steward of data, a developer of innovative technology, and a provider of trusted information.
