DISCLAIMER REGARDING FORWARD-LOOKING STATEMENTS

This presentation contains forward-looking statements within the meaning of Section 27A of the US Securities Act of 1933, as amended, and Section 21E of the US Securities Exchange Act of 1934, as amended. These statements are subject to risks and uncertainties that could cause actual results or outcomes of RELX PLC (together with its subsidiaries, “RELX”, “we” or “our”) to differ materially from those expressed in any forward-looking statement. We consider any statements that are not historical facts to be “forward-looking statements”. The terms “outlook”, “estimate”, “forecast”, “project”, “plan”, “intend”, “expect”, “should”, “could”, “will”, “believe”, “trends” and similar expressions may indicate a forward-looking statement. Important factors that could cause actual results or outcomes to differ materially from estimates or forecasts contained in the forward-looking statements include, among others: regulatory and other changes regarding the collection or use of personal data; changes in law and legal interpretation affecting our intellectual property rights and internet communications; current and future geopolitical, economic and market conditions; changes in the payment model for our scientific, technical and medical research products; competitive factors in the industries in which we operate and demand for our products and services; our inability to realise the future anticipated benefits of acquisitions; compromises of our cybersecurity systems or other unauthorised access to our databases; changes in economic cycles, communicable disease epidemics or pandemics, severe weather events, natural disasters and terrorism; failure of third parties to whom we have outsourced business activities; significant failure or interruption of our systems; our inability to retain high-quality employees and management; changes in tax laws and uncertainty in their application; exchange rate fluctuations; adverse market conditions or downgrades to the credit ratings of our debt; changes in the market values of defined benefit pension scheme assets and in the market related assumptions used to value scheme liabilities; breaches of generally accepted ethical business standards or applicable laws; and other risks referenced from time to time in the filings of RELX PLC with the US Securities and Exchange Commission. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. Except as may be required by law, we undertake no obligation to publicly update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events.

RELX is a global provider of information-based analytics and decision tools for professional and business customers, enabling them to make better decisions, get better results and be more productive

RELX global scale and growth 2023

- Revenue: £9.2bn

- Further operational and strategic progress

Dividend growth calculated in GBP

H1 2024 progress and outlook

“RELX delivered strong revenue and profit growth in the first half of 2024. Our improving long-term growth trajectory continues to be driven by the ongoing shift in business mix towards higher growth analytics and decision tools that deliver enhanced value to our customers across market segments.”

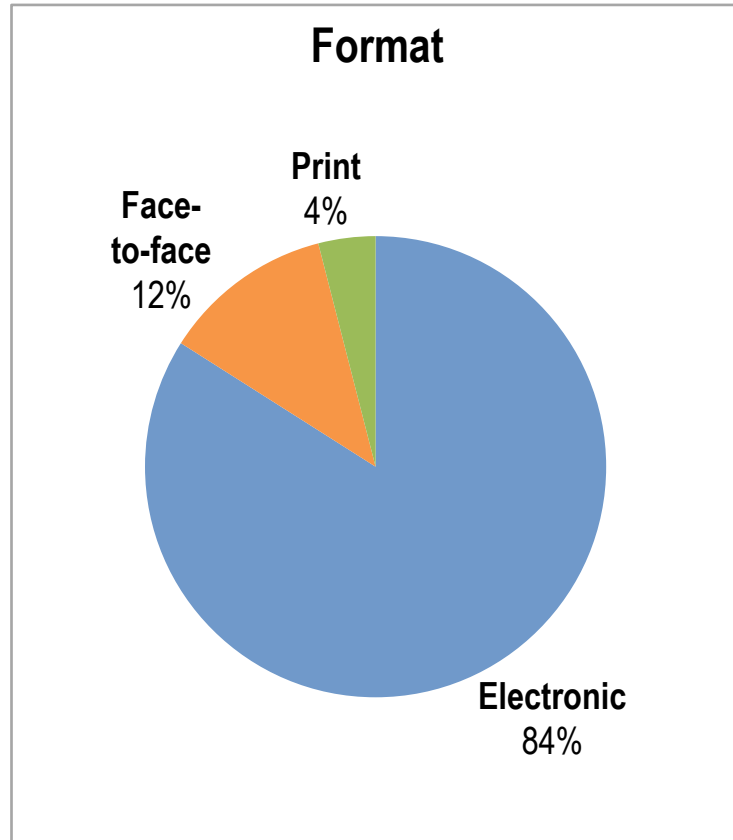

“We develop and deploy these tools across the company by leveraging deep customer understanding to combine leading content and data sets with powerful artificial intelligence and other technologies. This has been a key driver of the evolution of our business for well over a decade, and will remain a key driver of customer value and growth in our business for many years to come.”

Full year outlook

We continue to see positive momentum across the group, and we expect another year of strong underlying growth in revenue and adjusted operating profit, as well as strong growth in adjusted earnings per share on a constant currency basis.

Risk

Our four key capabilities driving organic innovation engine

1. Deep customer understanding

2. Leading data sets

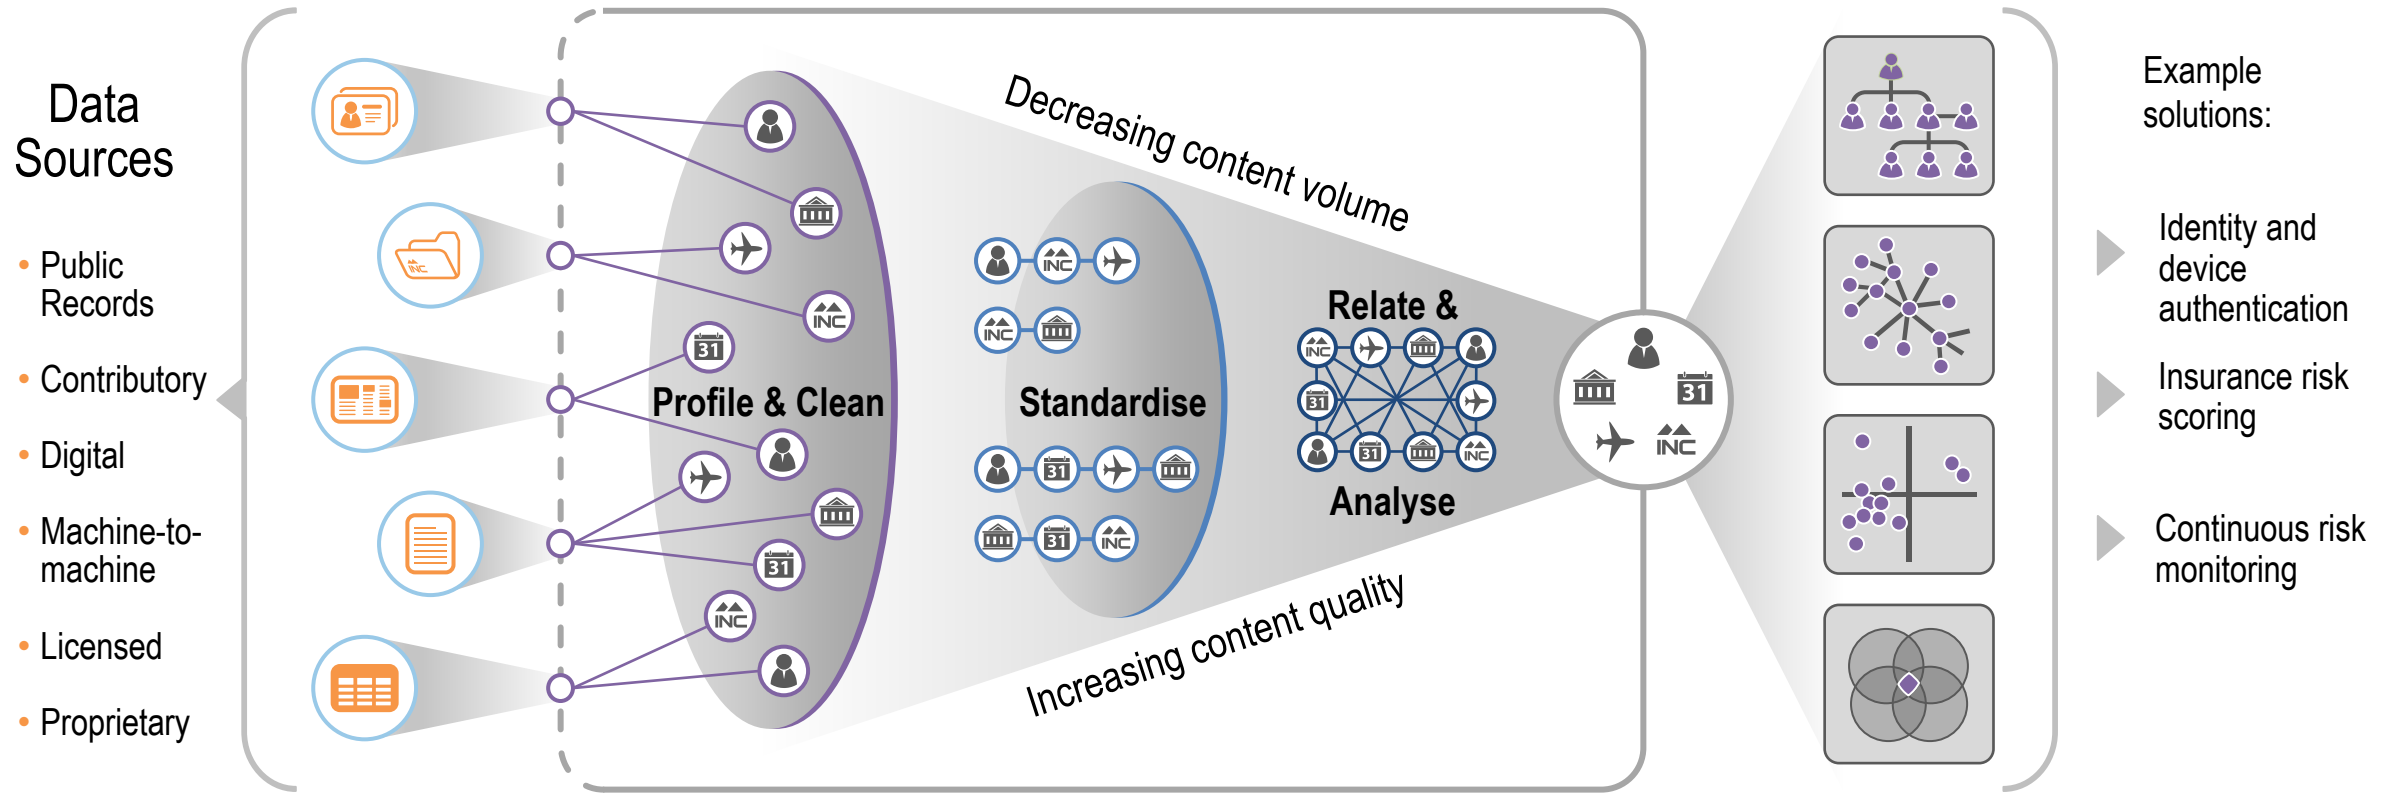

3. Advanced linking and analytics

4. Powerful technology in global platforms

Risk

Delivering to customers in single point of execution

Unstructured and structured content

- Over 14 petabytes of data
- Tens of billions of public records
- Hundreds of thousands of sources
- Billions of device and asset identities
- Hundreds of millions of records added daily

Big data platforms

- Grid computing with low-cost servers
- Linking algorithms that generate high precision and recall
- Machine learning algorithms to cluster, link and learn from the data
- High speed data ingestion, recall, and processing
- Rapid development cycles

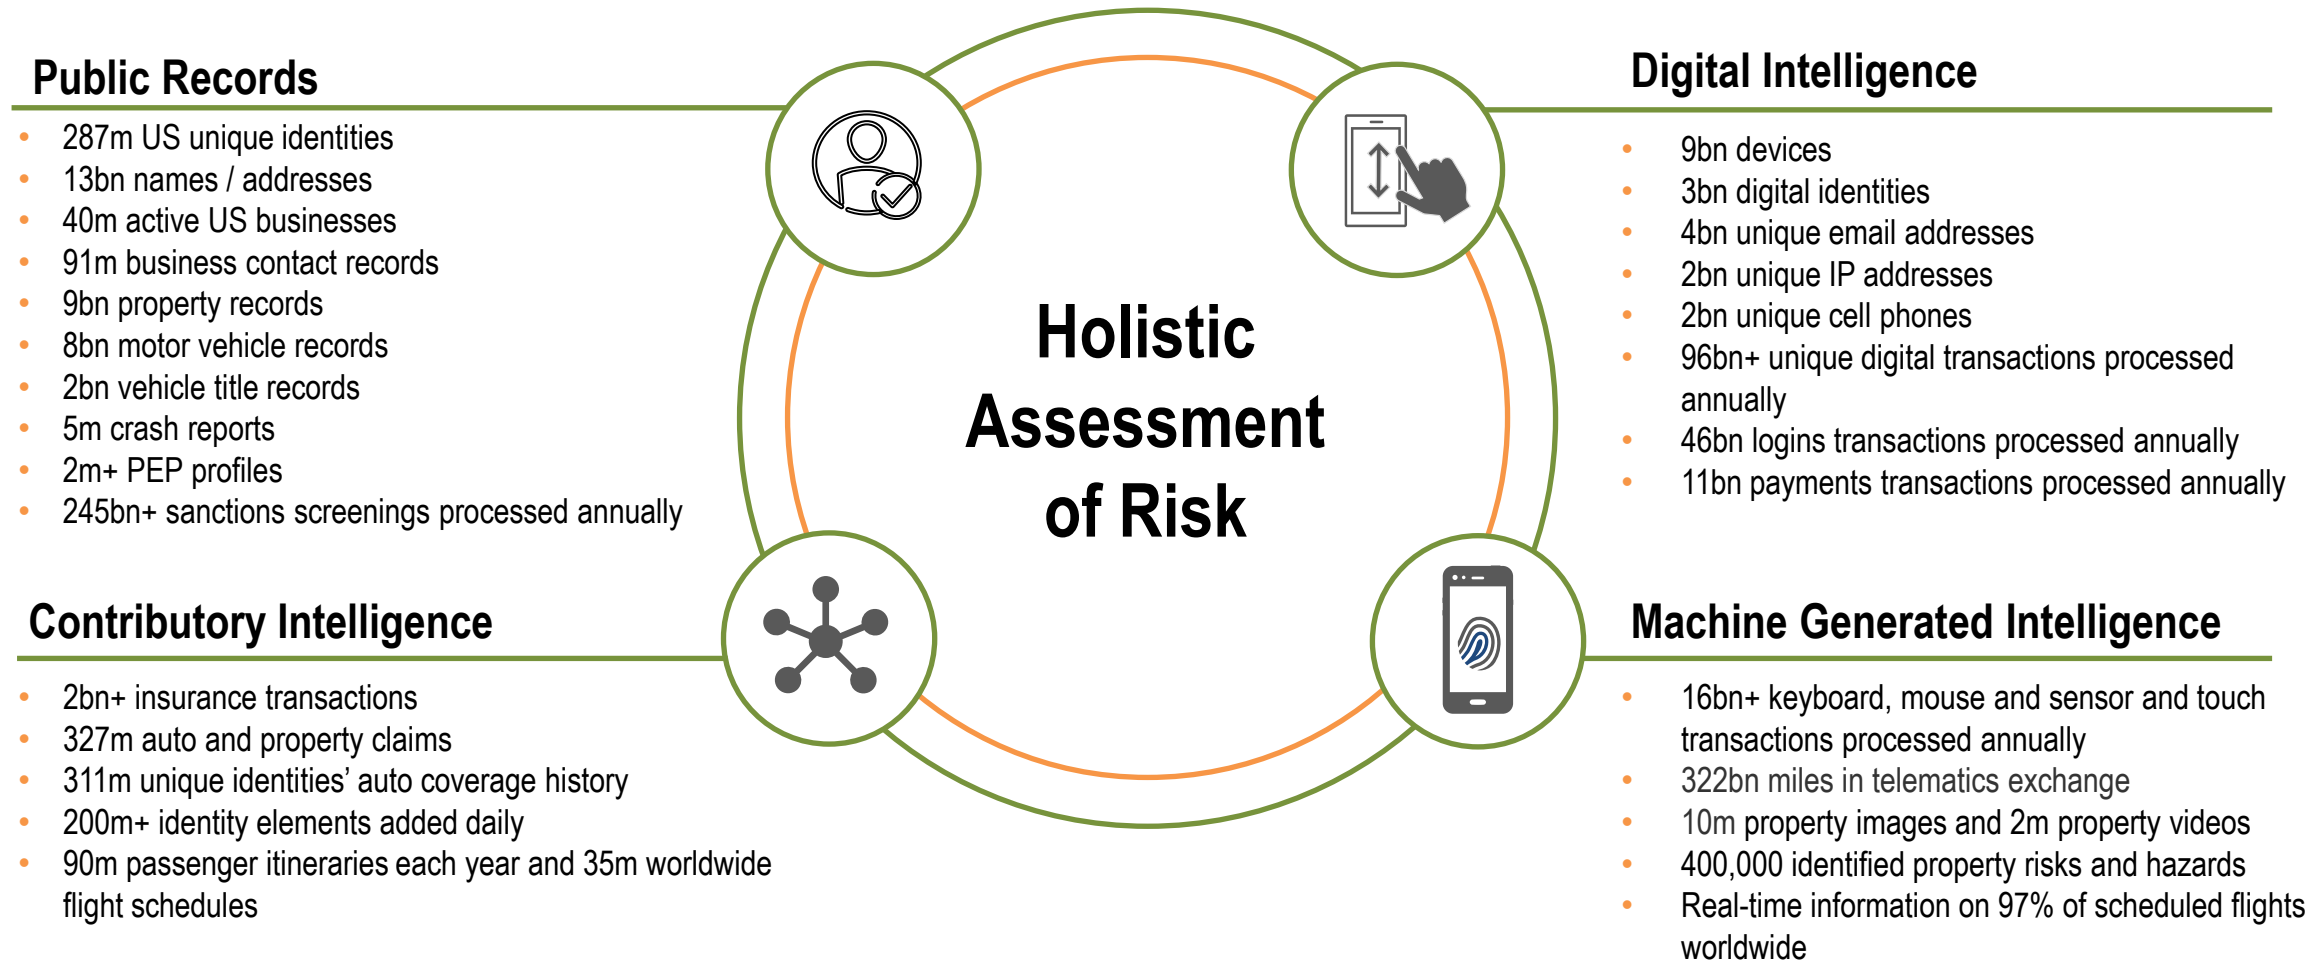

Analysis applications

- Patented algorithms
- Predictive modeling
- Machine learning and artificial intelligence

Customer single point of execution

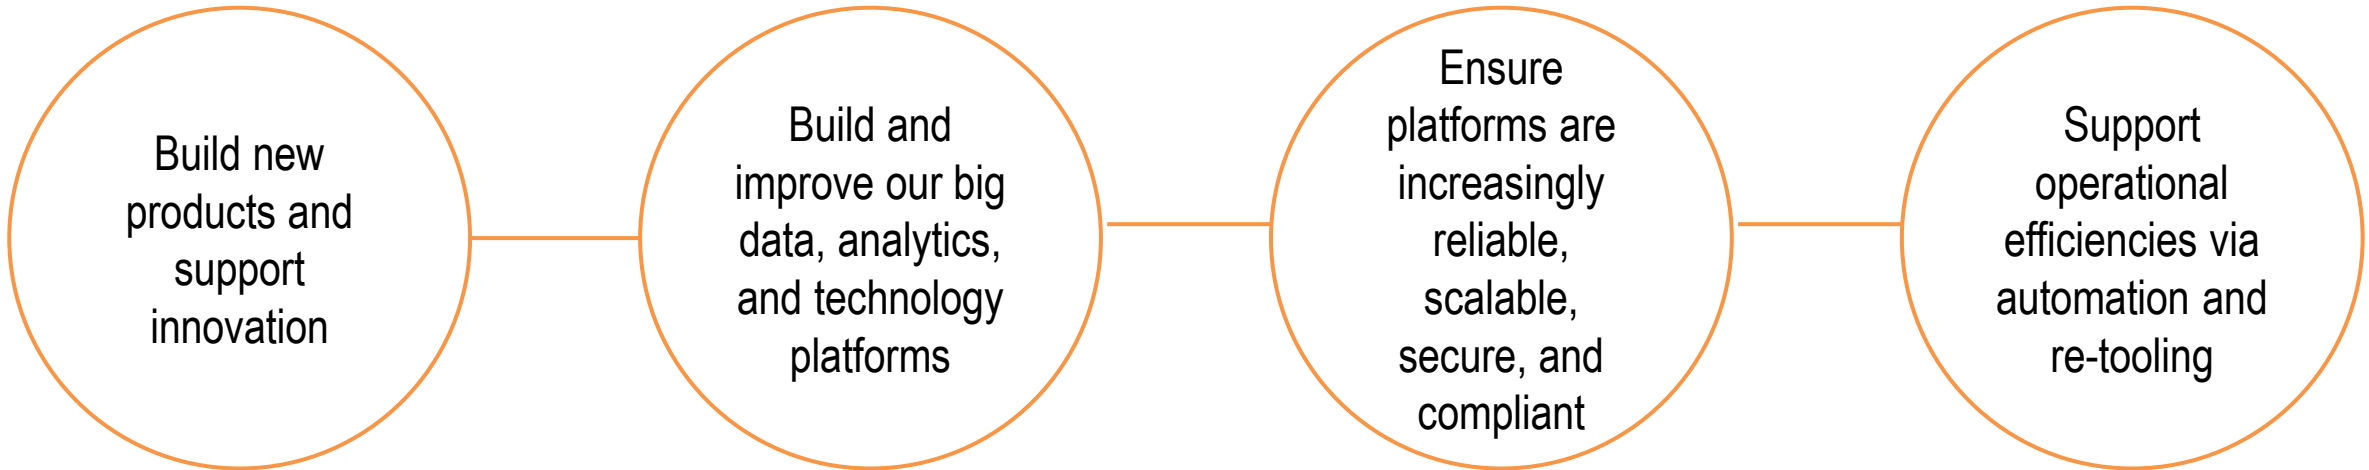

- Modular product suites
- Flexible delivery platforms

Data is our foundation

Public records and Machine generated intelligence total in database as of August 2023, others last 12 months as of September 2023

Technology at Risk

Global Scale

- \$1.7bn RELX annual technology spend
- >3,000 technologists at Risk and 11,000 at RELX
- 15+ years of experience with big data and AI/ ML
- Technology agnostic
- Leverage approaches across RELX

Business Services solutions help customers solve daily business challenges

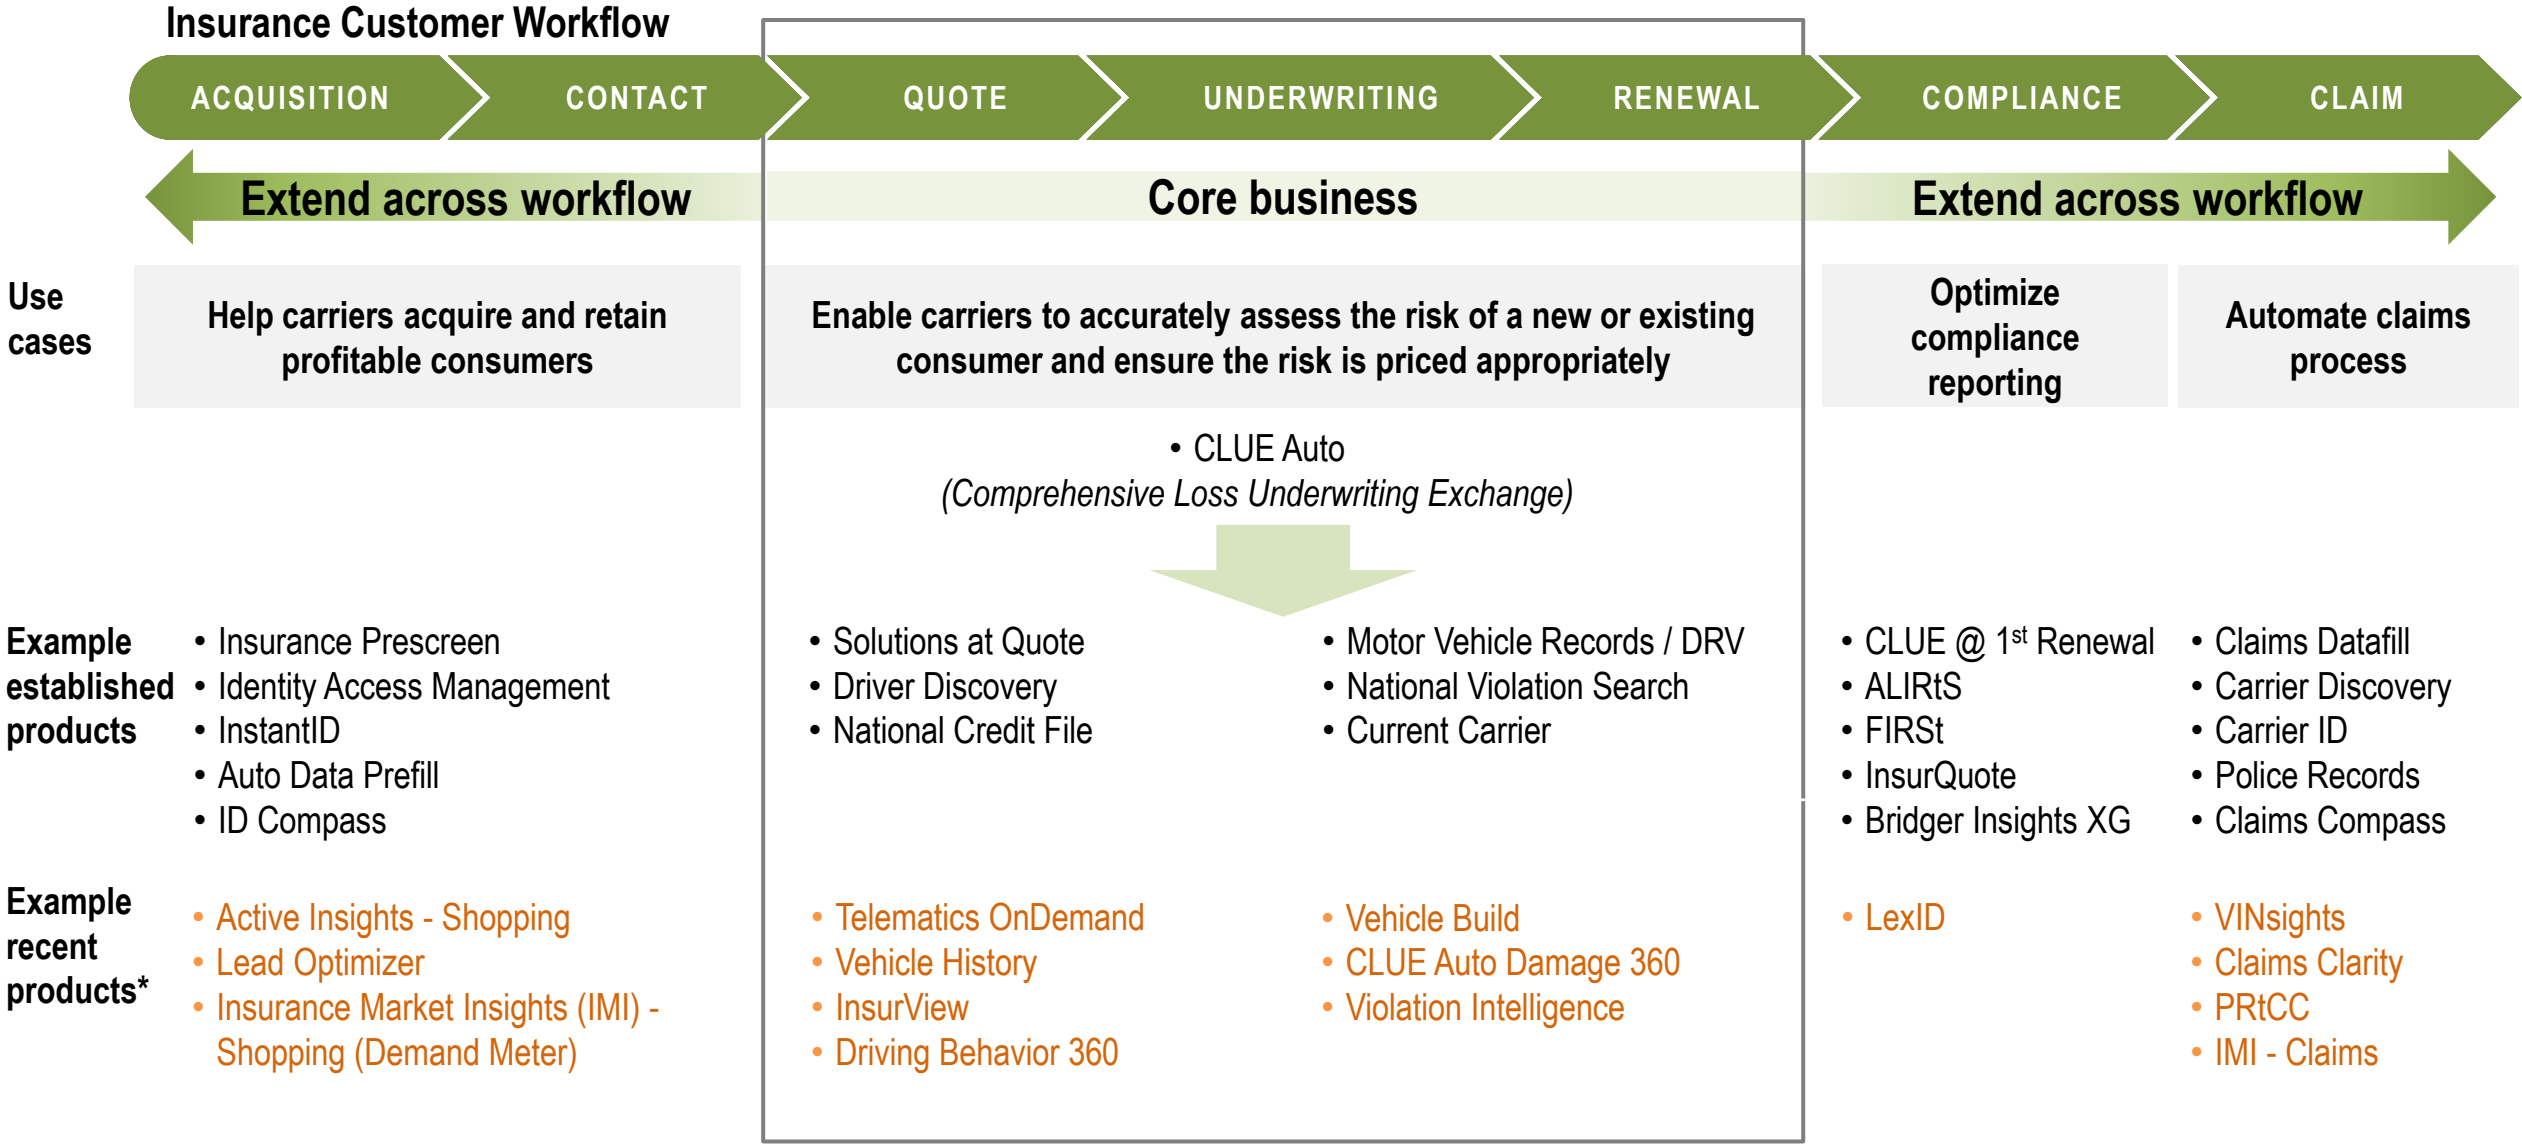

We enable our customers to assess risk associated with an individual or a transaction – allowing our customers to make higher-confidence decisions and creating greater trust during a transaction flow

Change in business mix driving improved growth trajectory

Leveraging our four key capabilities to deliver analytics and decision tools

- Deep customer understanding and domain knowledge
- Leading content and data sets, eg primary research, patents, drug databases, medical claims
- Advanced linking capability and sophisticated analytics
- Powerful technology in global, modular, scalable platforms leveraging RELX capabilities

Delivering insights and analysis to customers

Structured and unstructured content, eg

- >95m publication records, from >45k sources; >150m patents; >2m preprints; c.9m grants; >20m datasets; c5m policy docs
- >55k drug database records; clinical trial data; clinical guidelines
- Identity data >285m unique individuals; 8.5bn medical claims, >15m providers and affiliations

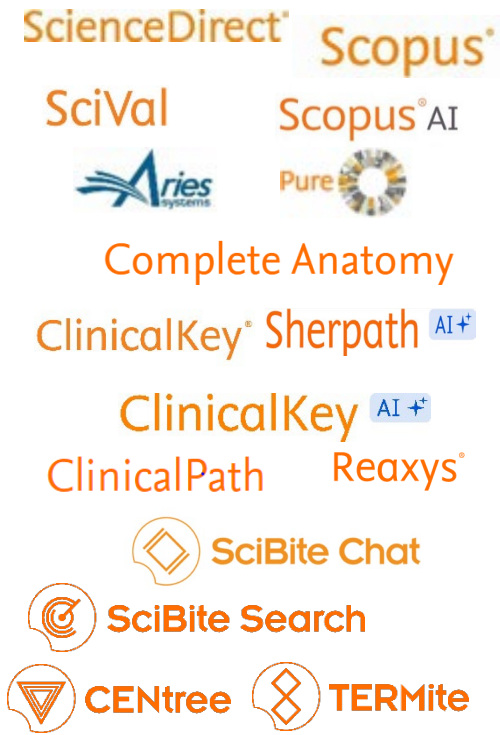

Big data platforms

- High-quality & extensible natural language-based entity tagging & machine learning and rules-based linking
- Deep domain knowledge through proprietary data sets (eg taxonomies) and policies to link & represent key entities

Customer single point of execution

- Modular product suites
- Flexible delivery platform

Legal

Underlying growth rates

Strategic priorities

Drive improved organic revenue growth through further development of legal analytics

- Expand our portfolio of information-based solutions, analytics and decision tools that deliver enhanced value to our customers

Pursue growth in adjacent use cases

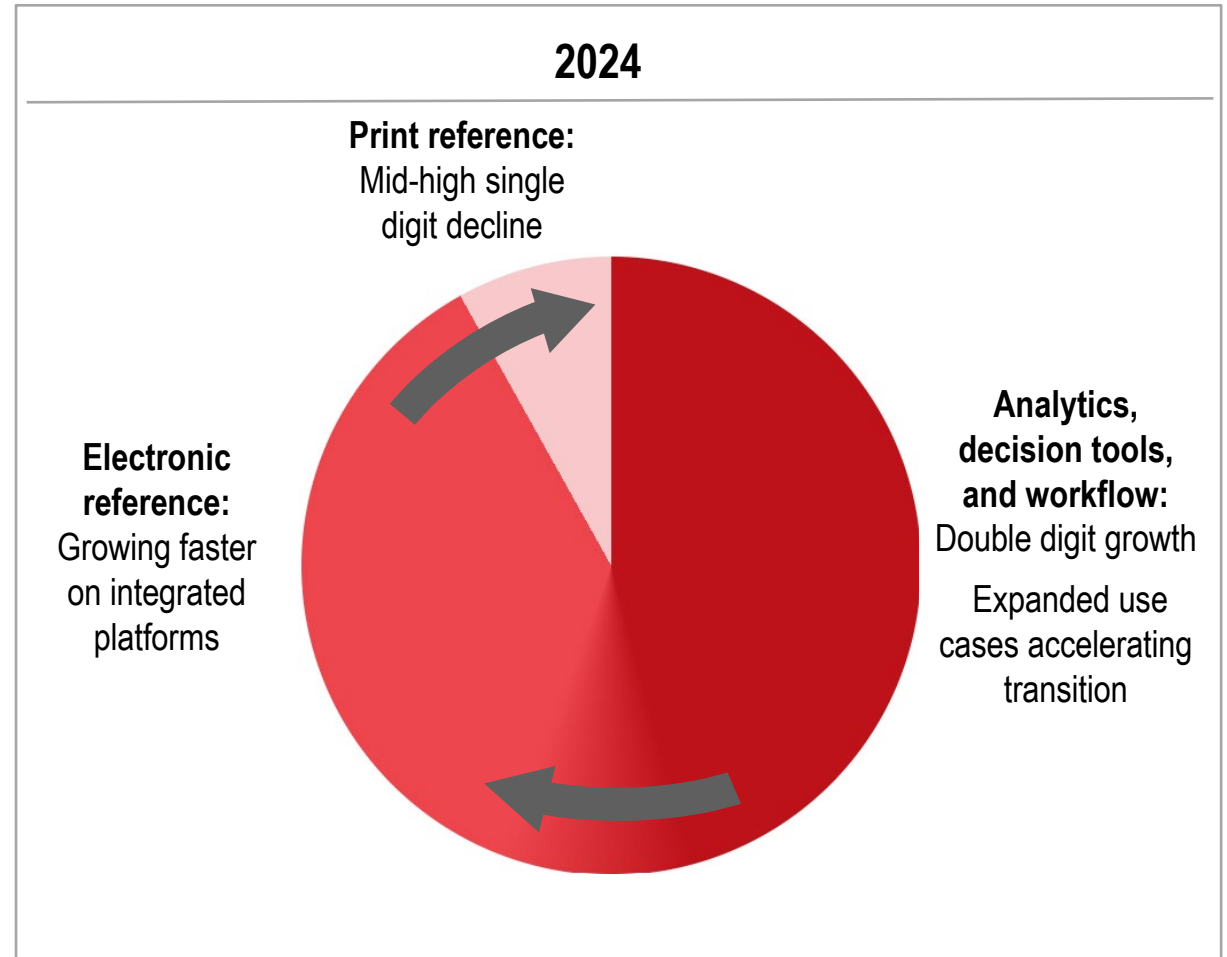

- Leverage new product use cases across lawyers' key decision points and expand products globally

Leverage our global, modular legal technology platform and comprehensive, accurate content

- Continue to invest in our scalable and modular technology platform leveraging both Extractive and Generative AI

Shift to analytics, decision tools, and workflow driving growth

Legal revenue by solution type

Evolution to higher customer value analytics, decision tools, and workflow

Lexis+ integrates decision tools and expands into new use cases

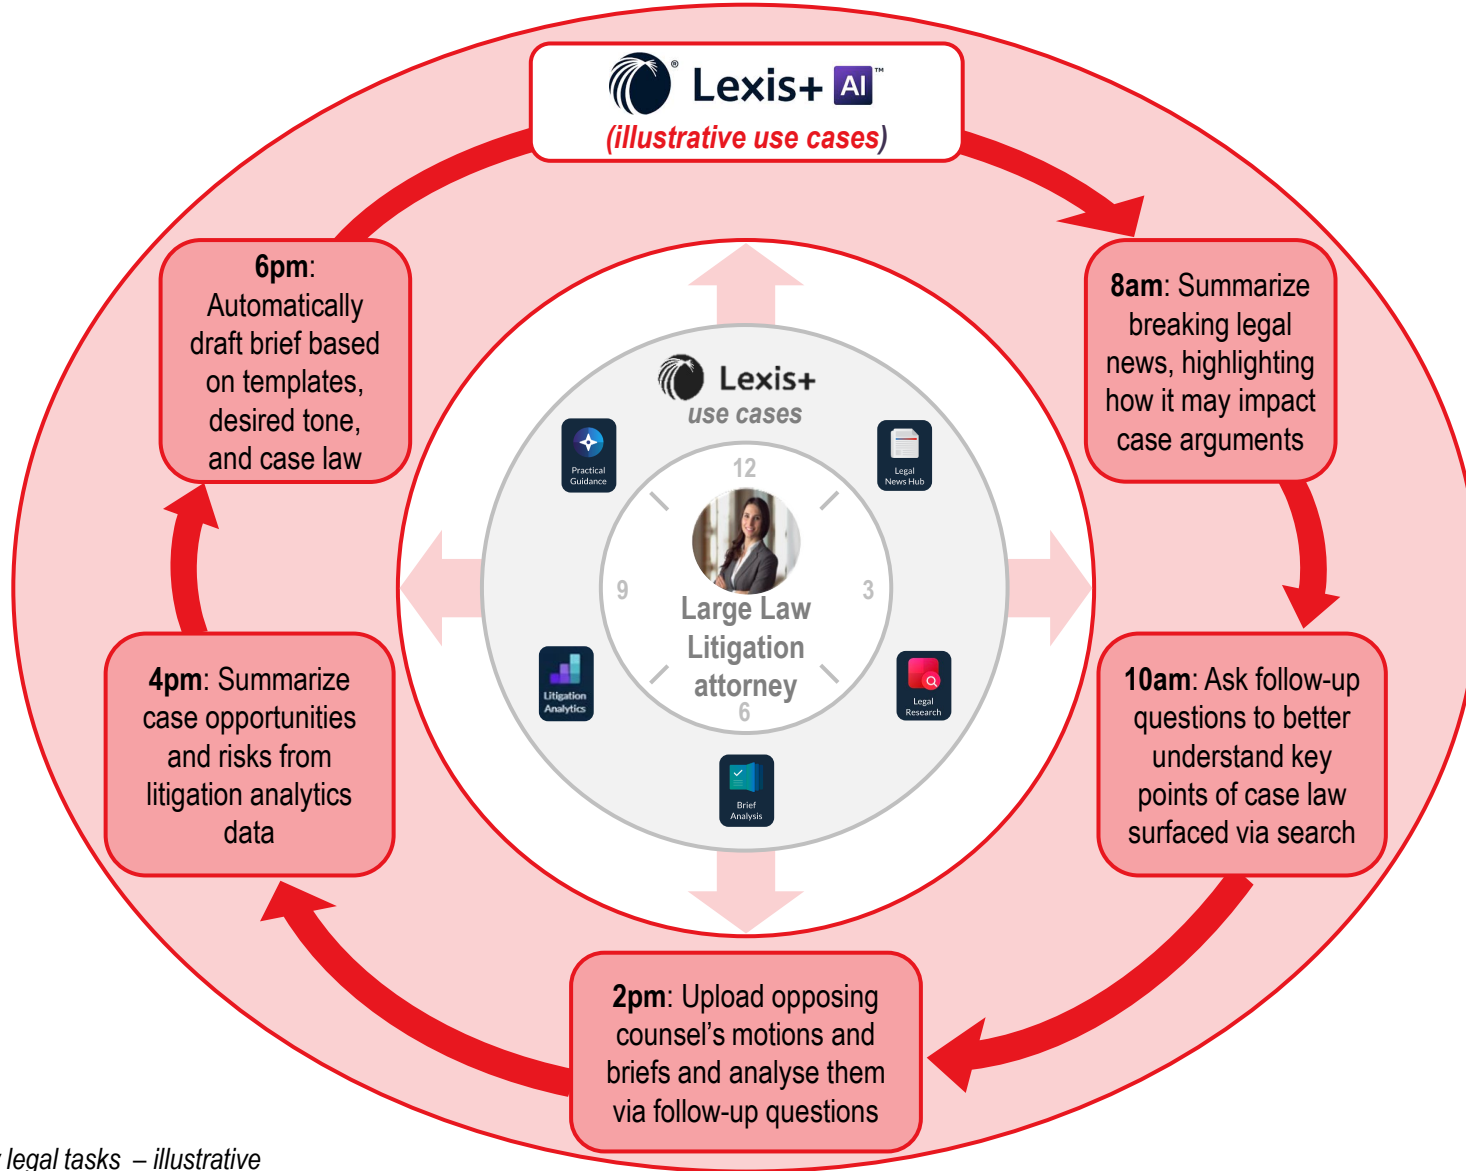

Lexis+ drives customer value:

- Platform integrates stand-alone tools into a unified interface providing a single point of customer execution
- Use case expansion beyond research into analytics, decision tools, and workflow
- Provides information-based solutions to lawyers throughout the workday, embedded at key decision points

Leverages Extractive AI capabilities built over a decade

Lexis+ AI drives further use case expansion through Generative AI

Expansion of use cases enabled by Lexis+ AI driving significant customer value:

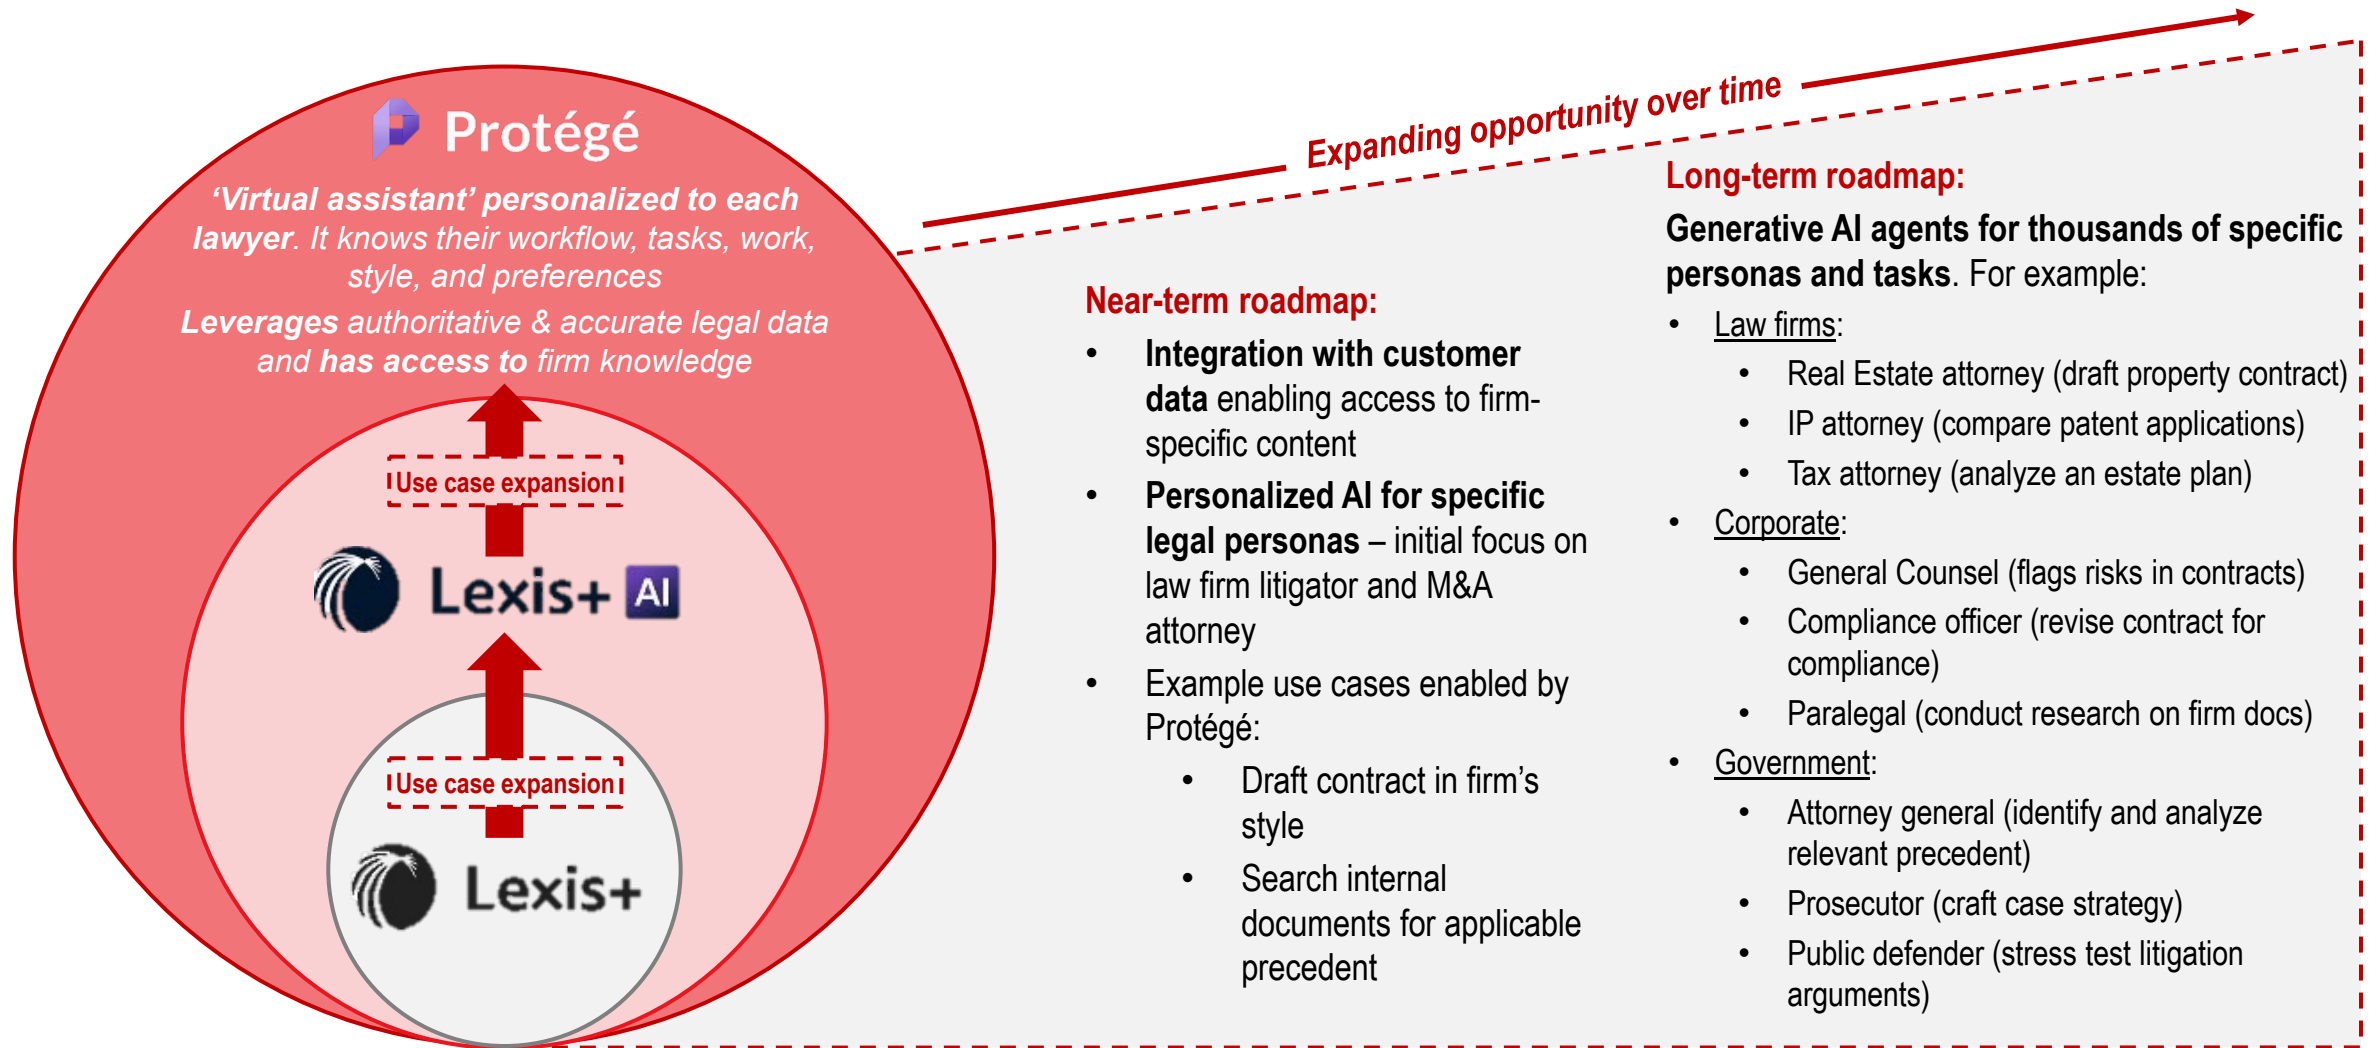

- Seamless integration of Generative AI in trusted and familiar Lexis+ environment
- Higher quality work product
- Substantial time savings
- More rapid and effective business development

Value equation driving significant demand among customers

Protégé: next generation personalized legal AI assistant

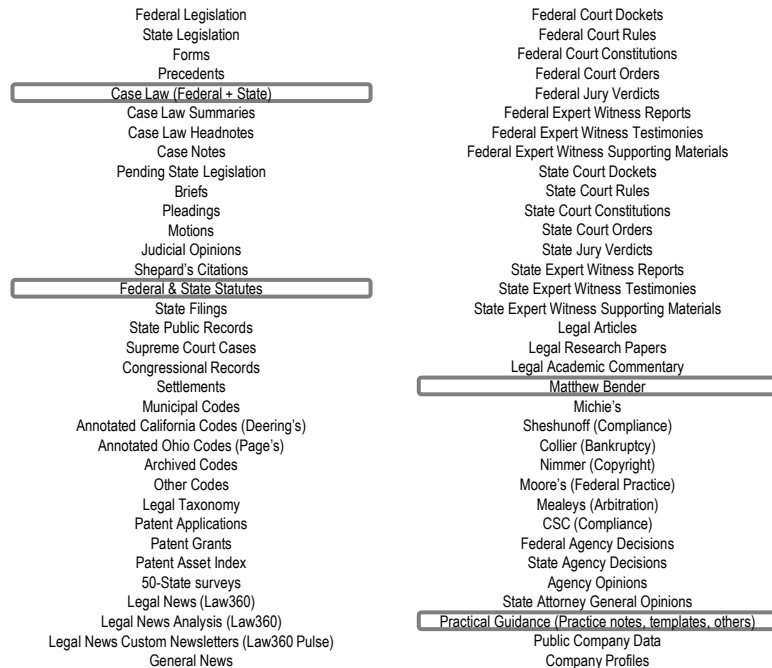

Protégé expands on the Generative AI capabilities of Lexis+ AI

Comprehensive and accurate content critical for all our products and a crucial component of reliable Generative AI solutions

Content sets *(non-exhaustive, US-based examples)*

100+ billion documents and records, **2m+ new documents added daily** from **50k+ sources**, generating **150+ billion connections**.
Citation network with 100+ different treatments, constantly updated

Internal firm content *(accessible via integration, examples)*

100+ million documents per firm, hundreds of billions overall

| Example | Example of uniqueness | Value to customers |
|--------------------------------------|--|--|
| Case Law (Federal + State) | <ul style="list-style-type: none"> ~25% more coverage than other providers, 100m+ documents (including 10m+ unpublished cases) Continuously updating to keep current (e.g., on average a court updates a case multiple times after its release) Enriched via editorial and metadata enhancements (expert summaries, headnotes, and linkages to billions of entities) Always current citation network indicates if case is still valid | Most comprehensive, up-to-date, and accurate research essential for quality practice |
| Federal & State Statutes | <ul style="list-style-type: none"> ~4m statutes and ~70m historical records covering 200+ years of content (beyond what is available through original sources), and driving changes to 4m+ other interlinked documents Records enhanced with expert-crafted case notes | Access to statute history / versions critical for accurate interpretation |
| Matthew Bender | <ul style="list-style-type: none"> Trusted proprietary brand providing authoritative legal analysis since 1887 Portfolio of 1,300+ treatises curated by legal experts, cited in over 153,000 US federal and state cases | Expert commentary crucial for interpretation and argument |
| Practical Guidance | <ul style="list-style-type: none"> 36k+ proprietary documents drafted by 2,500 leading practitioners across 50+ jurisdictions and 26 practice areas (e.g., practice notes, templates, checklists, etc.) | Market standards for legal terms and proven practitioner work products vital to a streamlined workflow |

Continuously evolving modern and lightweight technology platform enables rapid innovation

RELEVANT

AI factory: Cutting edge machine learning and artificial intelligence capabilities built on top of robust infrastructure and data platform

SCALABLE

Multi-cloud: Cloud native within multiple cloud environments, enabling increased scalability, reliability, and agility

FLEXIBLE

Agile development: Continuous code deployment with agile product development enables quicker release frequency at reduced cost

MODULAR

Shareable microservices: Modular technology platform structured into components that can be reused and shared across businesses

Data lake / content

Use of AI and automation technologies to enrich content, create multiple levels of metadata, and enable data mining and analytics

Cloud based infrastructure enabling single point of access via browser

Generative AI seamlessly integrated into legal technology platform

Enabling innovation through:

- **Technology agnostic multi-model approach** enabling rapid testing, adoption, and scaling of latest models
- **Legal Retrieval Augmented Generation (RAG) platform** continuously evolving to provide the most relevant content
- **Composable, scalable, and multi-cloud** underlying infrastructure seamlessly integrated with global legal technology platform enabling rapid development, continuous experimentation, and ability to stay on top of evolving AI trends
- **Prioritizing data privacy and security** ensuring safe use of AI and driving development in line with RELX Responsible AI Principles

Producing market leading answer quality and speed

Cost innovation to manage cost growth below revenue growth

Continuously improving & automating processes to drive cost innovation, now also leveraging Generative AI tools

Examples

Content

- Proprietary **Lexis+ AI Content Platform** to integrate Generative AI and automation throughout our editorial processes
- Incorporating Generative AI into the **editorial workflow** accelerates the publication process, increases publication output volume, and maintains high content standards

Technology

- **Developer coding assistant** for code generation, debugging, test case generation, code refactoring, and more
- Integrating Generative AI **across the software development lifecycle** streamlines code production, enhances code quality, and increases deployment frequency

Corporate responsibility

RELX is a global provider of information-based analytics and decision tools for professional and business customers, enabling them to make better decisions, get better results and be more productive.

Our purpose is to benefit society by developing products that help researchers advance scientific knowledge; doctors and nurses improve the lives of patients; lawyers promote the rule of law and achieve justice and fair results for their clients; businesses and governments prevent fraud; consumers access financial services and get fair prices; and customers learn about markets, source products and complete transactions.

Our purpose guides our actions beyond the products that we develop. It defines us as a company. Every day across RELX our employees are inspired to undertake initiatives that make unique contributions to society and the communities in which we operate.

Corporate responsibility progress

Purpose of the company

- Our purpose guides our actions beyond the products that we develop

Unique contributions

- We leverage our products and skills to undertake initiatives that make unique contributions to society

Performance metrics

- We continue to improve our performance in significant areas that concern all companies – governance, people, customers, community, supply chain, and environment

External accountability

- We believe in timely, comprehensive reporting of key non-financial metrics, and have again been recognised through high ratings by a number of external agencies
